Covid 19 prevention products

Ref.: GW04 15 01 00
Automatic desinfectant dispenser 1100 ml.
ABS white

Ref.: GW04 15 01 00ST
Hygienic hand rub stand

Ref.: GW04 14 01 04
Automatic soap dispenser 1100ml ABS silver

Ref.: GW04 14 01 00
Automatic soap dispenser 1100ml ABS white

ELECTRONIC BASIN TAPS
Ref.: 67120 15 45 66
Electronic basin one water tap with battery
Fitted with an infra-red detection system.
Programmed for auto-closing after 60 seconds.
Made in CC770S brass chrome plated according to EN 248 and powered by one 9V battery.
Supplied with a plastic anti-lime economizer aerator with 6 l/min restrainer.
Includes all the fixation elements.
Special prevention functions: Stop function of supply after 60 seconds of continuous use. Anti-legionella function for 45 seconds after 24 hours of inactivity.

Ref.: 67135 15 45 66
Electronic basin mixer tap with battery
Fitted with an infra-red detection system.
Programmed for auto-closing after 60 seconds.
Made in CW617N brass chrome plated according to EN 248 and powered by 4 AAA batteries.
Supplied with mixer triggered by a handle and plastic anti-lime economizer aerator with 8 l/min restrainer.
Includes check valves, filter, flexible connections according to EN 13618 and all the fixation elements.
Special prevention function: Stop function of supply after 60 seconds of continuous use.

Ref.: 67121 15 45 66
Electronic basin mixer tap with battery
Fitted with an infra-red detection system.
Programmed for auto-closing after 60 seconds.
Made in CC770S brass chrome plated according to EN 248 and powered by one 9V battery. 100.000 uses (2 years).
Supplied with a plastic anti-lime economizer aerator with 6 l/min restrainer and all the fixation elements.
Special prevention function: Stop function of supply after 60 seconds of continuous use.
Anti-legionella function for 45 seconds after 24 hours of inactivity.

Ref.: 67122 15 45 66
Electronic basin mixer tap with battery
Fitted with an infra-red detection system.
Programmed for auto-closing after 60 seconds.
Made in CC770S brass chrome plated according to EN 248 and powered by one 9V battery. 100.000 uses (2 years).
Supplied with a plastic anti-lime economizer aerator with 6 l/min restrainer and all the fixation elements.
Special prevention function: Stop function of supply after 60 seconds of continuous use.
Anti-legionella function for 45 seconds after 24 hours of inactivity.

Ref.: GW01 18 04 01
Bladeflow 2 hand dryer

Ref.: GW01 28 04 01
Verdedri hand dryer with HEPA filter combining filtration and antimicrobial technology to clean the air by 99% and improve the sanitation of the hand dryer.
WHO (World Health Organization) recommendation on the use of electric hand dryers as one of the most effective and safest dryers in the prevention of Covid 19.

URINAL VALVES

- Electronic valve powered with battery for automatic programmed flow regulation or closing of the water supply to carry out the necessary maintenance.
  - Includes all the fixation elements.
  - Includes a 7 l/min water restrainer.
  - Fitted with a stainless steel filter. Instant water flow controlled by the position of the pedals. Fitted with water flow adjustable restrainer and stainless steel filters. Prevention against water hammer device. Includes all the fixation elements.

PEDAL VALVE

- Electronic built-in urinal valve powered with battery for automatic programmed flow regulation or closing of the water supply.
  - Ref.: 1089 04

- Anti-vandal shower sprayer. Made in CC754S brass and chrome plated according to EN 248. 2 master cards.

- Non-contact infrared thermometer. Measurement range: body 32.0 to 42.9 °C (89.6 to 109.3 °F) and outlet temperature controlled by the position of the pedals. Fitted with water flow adjustable restrainer and stainless steel filters. Prevention against water hammer device. Includes all the fixation elements.

- Timing: Automatic stop: 7 seconds
- Measurement distance: 3 to 5 cm.
- Accuracy: Human ± 0.2 °C (0.4 °F)

FLOW REGULATION OR CLOSING OF THE WATER SUPPLY TO CARRY OUT THE NECESSARY MAINTENANCE.

- Includes all the fixation elements.

- Made of brass CC754S and chrome plated according to EN 248. Anti-lime plastic aerator.

- Includes all the fixation elements.

- Professional filling swiveling spout to be installed on a countertop. Spout and holder in CC761N brass chrome plated according to EN 248. Anti-vandal shower sprayer with ball and socket. Made in CC754S brass and chrome plated according to EN 248. Anti-vandal shower sprayer with ball and socket. Made in CC754S brass and chrome plated according to EN 248.

- Made in CC754S brass. Suitable system for those installations (gyms, campsites) where prepayment is required in the use of water. Set consisting of: RFID reader for shower with cards. Includes a 7 l/min water restrainer.

- RFID cards. RFID programmer for prepaid systems. Smart card read-in and out, self-service. Includes a 7 l/min water restrainer.

- Includes all the fixation elements.

- Includes a 7 l/min water restrainer.

- Made in CC754S brass and chrome plated according to EN 248. Anti-vandal shower sprayer. Made in CC754S brass and chrome plated according to EN 248.

- Made in CC754S brass and chrome plated according to EN 248. Anti-vandal shower sprayer with ball and socket.

- Made in CC754S brass and chrome plated according to EN 248. Anti-vandal shower sprayer with ball and socket. Made in CC754S brass and chrome plated according to EN 248. Anti-vandal shower sprayer with ball and socket. Made in CC754S brass and chrome plated according to EN 248.

- Made in CC754S brass and chrome plated according to EN 248. Anti-vandal shower sprayer with ball and socket. Made in CC754S brass and chrome plated according to EN 248. Anti-vandal shower sprayer with ball and socket. Made in CC754S brass and chrome plated according to EN 248.

- Made in CC754S brass and chrome plated according to EN 248. Anti-vandal shower sprayer with ball and socket. Made in CC754S brass and chrome plated according to EN 248.
### Electronic Urinal System with Recycling

#### Ref.: 1194 04
- Electronic urinal valve powered with battery.
- Includes all the components.
- Made in CW617N brass chrome plated.
- Programmed for auto-closing after 8 seconds.
- Fitted with an infra-red detection system.

#### Ref.: 1303 04
- Electronic floor foot valve. Body and handle in CW617N brass and chrome plated according to EN 248. Instant water flow and outlet temperature controlled by the position of the pedals. Fitted with anti-lime turbine device. Made in CC754S brass and chrome plated according to EN 248.

#### Ref.: 1342 04
- Mixing floor mixer valve with check valves. Body and foot in CW617N brass and chrome plated according to EN 248. Instant water flow and outlet temperature controlled by the position of the pedals. Fitted with anti-lime turbine device. Made in CC754S brass and chrome plated according to EN 248.

### Pedal Valve

#### Ref.: 2030 04
- Fitted with an infra-red detection system.
- Made in CW617N brass chrome plated.
- Programmed for auto-closing after 9 seconds.
- Fitted with an infra-red detection system.

#### Ref.: 1301 04
- Electronic floor pedal valve. Body and handle in CW617N brass, chrome plated according to EN 248. Instant water flow controlled by the position of the pedal and cartridge in CW617N brass, chrome plated according to EN 248. Anti-lime plastic aerator. Includes all the components. Made in CC754S brass and chrome plated according to EN 248.

### Shower Sprayers

#### Anti-vandal shower sprayer with ball and socket

Anti-vandal shower sprayer with ball and socket. Made in CC754S brass and chrome plated according to EN 248. Standard G ½" wall connection. Includes a 7 l/min water restrainer. Made in CC754S brass and chrome plated according to EN 248.

#### Ref.: 1182 04
- Anti-vandal shower sprayer with ball and socket. Made in CC754S brass and chrome plated according to EN 248. Standard G ½" wall connection. Includes a 7 l/min water restrainer.

#### Ref.: 1670 04
- Shower arm Proyec. Made in CC754S brass and chrome plated according to EN 248. Standard G ½" wall connection. Includes a 7 l/min water restrainer.

### RFID Pay Prepay Systems

#### GE-PAY prepaid system for prepaid systems

GE-PAY prepaid system for prepaid systems. Consisting of: RFID reader for showers and GE-PAY RFID programmer for prepaid systems. Includes 2 master cards. Ref.: 1096 04

#### GE-PAY Prepay system

GE-PAY prepaid system for prepaid systems. Ref.: 1096 04

#### RFID Cards

Pack of 25 programable RFID cards. Ref.: 1098
URINAL VALVES
Electronic valve powered with battery for external
Ref.: 1050 04
Electronic built-in urinal valve powered with battery
Programmed for a auto-closing after 3 seconds.
Valve made in CW617N, SS304 plate. Powered to 230 V
Electronic built-in urinal valve. Body in brass C754S and
Pedestal. Fitted with water flow adjustable restrainer and

Shower sprayers
Shower sprayer with ball and socket connection. Made in CC754S brass and chrome plated according to EN 248. Fitted with an anti-lime turbine device. Standard G ½” wall connection. Includes a 7 l/min water restrainer.

Pedestal sprays
Shower arm. Made in CC754S brass and chrome plated according to EN 248. Standard G ½” wall connection. Includes a 7 l/min water restrainer.

Digital programmer for prepaid systems
RFID programmer for prepaid systems
Ref.: 1027 04

Water flow adjustable restrainer and stainless steel filters. Prevention against water hammer device. Includes all the fixation elements.

Ref.: 1205 04
Shower arm. Made in CC754S brass and chrome plated according to EN 248. Standard G ½” wall connection. Includes a 7 l/min water restrainer.

Mixing pedal valve
Mixing pedal valve with check valves
Ref.: 1310 04
Professional floor mixer pedal valve. Body and pedal in CW617N brass, chrome plated according to EN 248. Instant water flow and outlet temperature controlled by the position of the pedals. Fitted with water flow adjustable restrainer and stainless steel filters. Prevention against water hammer device. Includes all the fixation elements.

Ref.: 1301 04
Professional floor pedal valve. Body and pedal in CW617N brass, chrome plated according to EN 248. Instant water flow controlled by the position of the pedals. Fitted with water flow adjustable restrainer and stainless steel filters. Prevention against water hammer device. Includes all the fixation elements.

Ref.: 1244 04
Professional floor mixer pedal valve. Body and pedal in CW617N brass, chrome plated according to EN 248. Instant water flow and outlet temperature controlled by the position of the pedals. Fitted with water flow adjustable restrainer and stainless steel filters. Prevention against water hammer device. Includes all the fixation elements.
**URINAL VALVES**

- **Ref.: 1081 04**
  - Electronic valve powered with battery for external.
  - Fitted with infra-red detection system.
  - 7 seconds of discharge time.
  - Supplied with assembly box.
  - Made in CW617N brass chrome plated according to EN 248. Instant water flow and outlet temperature controlled by the position of the pedals.
  - Pedal valve. Fitted with water flow adjustable restrainer and stainless steel filters. Prevention against water hammer device. Includes all the fixation elements.
  - Ref.: 1094 04

**SWIVEL SPOUTS**

- **Ref.: 1250 04**
  - Professional filling swiveling spout to be installed on a countertop. Spout and holder in CW617N brass chrome plated according to EN 248. Anti-lime plastic aerator.
  - Includes all the fixation elements.

**PEDAL VALVE**

- **Ref.: 1284 04**
  - Electronic pedal valve for use in CWC295, c/w valve and water restriction in 320mm. Standard G ½" wall connection. Includes a 7 l/min water restrainer. Suitable for those installations (gyms, campsites) where prepayment is required in the use of water. Set consisting of: RFID reader for shower with 1 "OLED digital screen indicating Credit and Temperature. Power supply and supplied with 2 master cards.
  - Ref.: 1303 04

**SHOWER SPRAYS**

- **Ref.: 1179 04**

**NON-CONTACT INFRARED THERMOMETER**

- **Ref.: 1082 04**
  - Automatic stop: 7 seconds
  - Measurement range: body 32.0 to 42.9 o C
  - Accuracy: Human ± 0.2 o C (0.4 o F) 36.0 to 39.0 o C
  - Measurement distance: 3 to 5 cm.
  - Polyester housing with taped connection, shaded laser pointer, 1 1/2"mm.
  - Ref.: 1081

**GE-PAY PREPAID SYSTEMS**

- **Ref.: 1096 04**
  - GE-PAY prepaid system by RFID

**RFID CARDS**

- **Ref.: 1098**
  - Pack of 25 programable RFID cards.
We care for your hands, we care for you.

ELECTRONIC BASIN TAPS

Ref.: 67120 15 45 66

Electronic basin one water tap with battery
Fitted with an infra-red detection system.
Programmed for auto-closing after 60 seconds.
Made in CC770S brass chrome plated according to EN 248 and powered by one 9V battery.
Supplied with a plastic anti-lime economizer aerator with 6 l/min restrainer.
Includes all the fixation elements.
Special prevention functions: Stop function of supply after 60 seconds of continuous use. Anti-legionella function for 45 seconds after 24 hours of inactivity.

Ref.: 67135 15 45 66

Electronic basin mixer tap with battery
Fitted with an infra-red detection system.
Programmed for auto-closing after 60 seconds.
Made in CW617N brass chrome plated according to EN 248 and powered by 4 AAA batteries.
Supplied with mixer triggered by a handle and plastic anti-lime economizer aerator with 8 l/min restrainer.
Includes check valves, filter, flexible connections according to EN 13618 and all the fixation elements.
Special prevention function: Stop function of supply after 60 seconds of continuous use.

Ref.: 67121 15 45 66

Electronic basin mixer tap with battery
Fitted with an infra-red detection system.
Programmed for auto-closing after 60 seconds.
Made in CC770S brass chrome plated according to EN 248 and powered by one 9V battery. 100.000 uses (2 years).
Supplied with a plastic anti-lime economizer aerator with 6 l/min restrainer and all the fixation elements.
Special prevention function: Stop function of supply after 60 seconds of continuous use.
Anti-legionella function for 45 seconds after 24 hours of inactivity.

Ref.: 67122 15 45 66

Electronic basin mixer tap with battery
Fitted with an infra-red detection system.
Programmed for auto-closing after 60 seconds.
Made in CC770S brass chrome plated according to EN 248 and powered by one 9V battery. 100.000 uses (2 years).
